Become a Referral Partner with LGT

Our referral partners can earn \$10,000's a year!

01

Receive a % of all revenue generated from your referrals.

02

Get paid monthly for retainer contracts, and per job completion for any project-based work (E.g. Websites, UGC content creation, consulting).

03

10% commission paid to you for clients referred we don't know.

04

5% commission paid to you for clients we know where you encouraged the introduction and facilitated getting the deal over the line.

Examples

- 01** You refer a client we don't know, who signs our minimum retainer of \$3.5k/month. At the end of each month, you will be paid 10% (\$350.00). This will add up to \$4200 paid to you for the 12 months they are with us!
- 02** You refer a client we don't know who engages us to produce UGC creatives. They choose a \$4.5k package. Once we are paid our final invoice and the work is complete, you will be paid (10%) \$450.
- 03** You refer a client who has previously spoken with LGT Digital but did not go ahead. This client, with your help, chooses to engage our services. They sign a retainer of \$3.5k/month, and over the course of 12 months - they also build a website and get UGC creatives done. The website and UGC creatives within the 12 months total \$15k of work.

Since it's a client we already knew, your commission will be 5%. You will be getting paid your 5% on the retainer at the end of each month. And for the website & UGC creative work, that commission would have been paid at the completion of each project. Our total revenue for the 12 months is \$57,000 and your total paid commission is \$4,275.

The referral partnership will cease after 12 months of the client working with LGT Digital. This means that if the client chooses to work with LGT Digital after the 12 months, all revenue generated will not be commissioned from that point onwards.

Note: The referral partnership will cease after 12 months of the client working with LGT Digital. This means that if the client chooses to work with LGT Digital after the 12 months, all revenue generated will not be commissioned from that point onwards.
